## TOURBILLON – SKELETON

This Tourbillon model was produced specially for the most popular international watch fair "Basel-world 2012". In order to appreciate the beauty of the movement, its curved skeletonised bridges and tourbillon cage, the dial was designed in the most open way. For the same reasons, it is fitted with a see through glass back to allow you to enjoy the beautiful tourbillon movement. The classic stainless steel case with sapphire glass is 5 ATM water resistant. Limited edition to just 100 pieces in two different colour dials – silver and beige.
